Locating Serial Numbers on PLS Lifts

Each lift has a serail number sticker that helps identify your individual lift. The location is different depending on the type of lift.

Take a look below for how to locate the serail number on your lift type.

Locating Serial Number Plate on a cassette type lift

Lift as viewed from outside the vehicle when stowed

The serial number is listed on this sticker.

Please note: some older lifts may have a different shape/style of sticker, but it will be located in the same position on your lift.

Locating Serial Number Plate on an inboard type lift

Lift as viewed in it's stowed position inside the vehicle.

Serial number sticker located on the lift tower.
