

Access Lift

Setting the standard for under floor lifts

The Access Lift is perfect for vehicles where maximising internal space for passengers and luggage is essential, while still allowing full wheelchair accessibility.

- Designed for daily use in social welfare and SEND operations
- Tried and tested weather resistance
- Compatible with a wide range of vans
- Easy to use, 2-button operation
- DoorSafe ready as standard

- Platform Length: 1410 - 1780mm
- Platform Width: 825 - 925mm
- Safe Working Load: 400 - 500kg
- 12v and 24v versions
- Internal and external powerpack options
- 3-Year warranty

Access Lift Options

With a tried and tested design, you can take your Access Lift to the next level with a range of options to match your needs.

500kg SWL gives your lift an extra 100kg of safe working load for extreme use cases.

Cycle Counter keeps track of operational cycles of your lift.

Warning Sounder provides an audible warning whenever the lift is in operation.

LED Platform Lights can provide increased visibility of your lift when operating in hours of darkness.

Additional handsets can be kept inside vehicles or in your workshops for easy exchange if damage occurs.

Wireless Handset allows for wireless control of the lift. Supplied in pre-programmed pairs.

Throw Over Handrails provide additional support for lift users. Available as **throw-in only** toward the vehicle, **throw-out only** toward the road, or **full set** giving both pairs of handrails extensions.
